

# FREEDOM BUSINESS COMMUNITY

**JOIN US...**

Online Directory and App for businesses, organisations and individuals who do not wish to discriminate on any grounds, particularly personal health choices.

Politics, power and greed are causing segregation in society and we are taking action to do something about it!

We needn't be interested in someone's personal health choices, the colour of their skin, their sexual preference, their gender, as these labels only cause division. We are all human beings and ultimately we should want to live in harmony together.
